BACHELOR OF ENVIRONMENTAL SCIENCE

MAJOR ENVIRONMENTAL AND CATCHMENT MANAGEMENT 2008 EDITH COWAN UNIVERSITY

CERTIFICATE OF PROTECTED AREA MANAGEMENT AND ADMINISTRATION 2015 MURDOCH UNIVERSITY

LANDCARE/FIELD QUALIFICATIONS

Senior First Aid Certificate (HLTAID001) (exp 16/12/2022).

Western Australia Pest Management Technician License (Lic No 6282).

Seed collecting and processing qualification. (APACE).

Construction Safety Awareness Training Complete (Blue/white card #165149).

Chainsaw Operation FPICOT2239A trim and cut felled trees.

Operate Brush cutters, augers, hedge trimmers, small motors, pumps, pole saw, spray rigs/ boom.

Operate and calibrate environmental equipment (Water and air quality).

C-MR license.

Gravel Road Induction Programme (G.R.I.P).

Drive and recover a 4WD vehicle (SISODRV302A).

Maintain Workplace Safety unit (BSBCMN311B).

Qualified Die-back inoculation instructor (ALCOA training).

Level 1 Fire Fighting and water bomber reloading (DEC training).

Authorised Officer and Inspector (EPA Act, CALM Act, Litter Act). [Inactive]

Visitor Risk Management Training (DEC training).

PADI Open Water Scuba Diving.

WILDLIFE/CONSERVATION QUALIFICATIONS

Health care of Mammals and Triage and assessment (Native ARC).

Euthanasia understanding and techniques (Native ARC).

Elliot and pit trapping (ECU).

Currently learning about Native Bird care and wildlife rehabilitation.

Working knowledge and experience of Conservation and Land Management Act 1984, the Wildlife Conservation Act 1950, Litter Act 1979.

INTERPERSONAL QUALIFICATIONS AND SKILLS

City Bush Guide (Registered Urban Bush lands Council WA).

Working with Children Check (notice number 411474).

Ethical and Accountable Decision Making (DEC training).

Authorised Officer Investigation Training (WA Police Training).

Bi-lingual (Polish and English) experience in international volunteer education and training.

Conservation Volunteers management training and experience.

TECHNOLOGY SKILLS

Microsoft Office (Word, Excel, Power point, Publisher).

Metro-counter setup and reporting, Government Databases and Programs (RATIS, RECDATA, VISTAT FLORABASE, VRM ELECTRONIC SYSTEM).

GIS basics (Oziexplorer, ArcGIS) GPS and PDA operation and surveying techniques.

Experience with environmental equipment e.g. Water meters, water quality, dust monitors, wildlife camera, satellite phones.

Facebook and Instagram Campaigns, advertising and public engagement.

Sketch up, CAD and Adobe photoshop. Experience in piloting Drones and Radio handling UHF WAERN.

CAREER HISTORY

Martin's Environmental Service –Leading Hand - Weed and land management (Nature Reserves, crown land, rehabilitation projects), rehabilitation, fencing and other environmental services. Operating 4wd, Spray units, chainsaws, mulcher, brush cutters and more. Training new employees.

(C) Jake Pickersgill (ph) 0414492584 (e) jake@martinsenviro.com.au

Land care Officer and Work for the Dole Supervisor - SERCUL (South East Regional Centre for Urban Land care) Land care officer practicing weed management, planting, arbor work and bushland rehabilitation and other environmental works. I was also employed as a Work for the Dole Supervisor working with the Armadale Gosnells Land care Group (AGLG) and City of Armadale. This required supervising up to 12 participants in land care activities such as weeding, planting and general land care. I also developed and supervised a "Construction" program for Work for the Dole at SERCUL. The program involved training and supervising participants in construction methods of wetland boardwalks, signage, park benches, bat boxes, bird boxes, fencing and more. I was also responsible for statistical data collection, budgeting and reporting as well as facilitating team meetings. (2016-2018)

(C) Matt Grimble (ph) 94585664 (e) mattgrimble@sercul.org.au

Conservation Volunteers Australia Team Leader - recruits volunteers from Australia, and around the world to join important environmental and wildlife conservation projects. As a Team Leader I was responsible for project supervision and volunteer coordination of 12-50 volunteers. I was responsible for volunteer transport, inductions, safety and fieldwork. I worked with a range of local councils, corporations, friends groups, schools, indigenous groups, non-for-profit organisations, nurseries and land care companies. Fieldwork focused on environmental regeneration from weeding, massive native planting, litter pick up, die-back inoculations and training, audits, surveys and maintenance throughout Perth's Metro area bush land. I also worked on coastal areas, rural projects in the South West and Turtle Monitoring at Eco Beach and more. (2013-2016).

(C) Katie Haynes (ph) 93352777 (e) khaynes@conservationvolunteers.com.au

National Parks Ranger: At Lane Poole Reserve in March 2011 as a level 2. Responsible for People Visitor Service, Maintenance, Online Booking System, and campsite management. First winter season I was trained as an Authorised Officer and Inspector as well as completing many other Departmental Training programs and qualifications (listed in qualifications section). After 2 senior rangers, I was often given the Acting Senior ranger role. In this role I supervised park management and operation with the aid of the AWU operations implementing grading, drainage, signage, rehabilitation, managing emergencies (flooding, fire, wild winds, and car accidents, anti-social behavior) till July 2012 after an extended contract.

(C) Laurence Radin (m) 0408309416 (e) laurence.radin@dbca.wa.gov.au

OTHER EMPLOYMENT HISTORY

Greening Australia Commercial Services Unit Technical Officer (July- December 2014) Weed control with 4wd spray rigs 6m booms, vegetation monitoring, planting, and seed collection (Pilbara, South west), seed processing and rural fence construction.
